Projects

Portfolio, *my personal website* 📄

My personal website contains all my information, projects, and means of communication with me, and shows most of my capabilities

Store, *Brand Store* 📄

A website for an online shop where you can find all the shop information

Weather App, *get weather* 📄

Get the weather of any city by searching using the name of the city and the state

template, *Special Design* 📄

A site where you can control the main colors of the site and the original image of the site, change them and save them in local storage using Javascript

To Do App, *to do list app* [↗](#)

To arrange your original tasks in the task list, and they will not be deleted even if you close the site because they are dependent on local storage on JS

Crud App [↗](#)

This site is where you can place your tasks and modify them after placing or deleting them, Using react.js
